```

Flowchart illustrating the study design for the first EPT (wheat) trial:

- First EPT (wheat), March 2012-December 2019 (n=31 patients)
 - EPT negative (n=17)
 - EIARD negative (n=16)
 - EPT positive (n=14)
 - Convincing event at home (n=1)
 - Second EPT (n=6)
 - EIARD disappeared (n=4)
 - EIARD remaining (n=11)
 - EIARD positive, n=15
 - EIARD remaining (n=11)

December 2019
