

Table 3: Type of EA, surgical interventions, and complications

	Follow-up outside the		Follow-up in the		Total	
	hospital		hospital		n = 64%	
	n = 43%		n = 21%			
Gross classification						
EA type A	7	16.2	6	28.5	13	20.3
EA Type E	1	2.3	2	9.5	3	4.7
EA Type C	35	81.3	13	61.9	48	75
Additional surgical anomaly	21	48.8	14	66.6	35	54.7
Early complications	31	72	8	38	39	60.9
Anastomosis leak	1	32.2	2	25	3	4.7
Relapse fistula	7	22.5	-	-	7	10.9
Anastomotic stenosis	23	74.1	6	75	29	45.3
Esophageal dilation	37	86	9	42.8	46	71.9
Colon transposition	3	6.9	2	9.5	5	7.8
Early NIMV	29	67.4	13	61.9	42	65.6
Tracheostomy	1	2.3	3	14.2	4	6.3
Postop nutrition	26	60.4	11	52.3	37	57.8

before 1 month

Abbreviations: EA, esophageal atresia; NIMV, non-invasive mechanical ventilation
