

Figure 4: Infection frequency of 7 different isolates of *P. infestans* on plants within population LA3111.

Each facet shows an individual plant of the population LA3111, the box plot represents the infection fraction of plants when inoculated with seven isolates of *P. infestans* depicted in different colors. Y-axis represents infection frequency (0-1 as in Figures 1 and 2) and X-axis represents different *P. infestans* isolates.
