

Table 3: Analysis of accessory maxillary sinus ostia in superior meatus and the Lund–Mackay score

<b>Variables</b>	<b>Patient no. (%)<sup>a</sup></b>	<b>Mean of L-M score</b>	<b>SD of L-M score</b>	<b>P value</b>
<b>Accessory maxillary ostia</b>				
<b>Left maxillary sinus</b>				<b>&lt;0.001<sup>b</sup></b>
<b>Presence</b>	55 (34.6)	1.345	1.702	
<b>Absence</b>	104 (65.4)	3.327	3.221	
<b>Right maxillary sinus</b>				<b>&lt;0.001<sup>b</sup></b>
<b>Presence</b>	51 (32.1)	0.882	1.033	
<b>Absence</b>	108 (67.9)	3.222	3.291	

Abbreviations: SD: standard deviation, L-M score: Lund–Mackay score

<sup>a</sup>Values are present as number (%) unless noted otherwise

<sup>b</sup>One-way analysis of variance (Tukey test,  $P < 0.05$  was statistically significant)
